

The universe is immense and it seems to be homogeneous, in a large scale, everywhere we look at.

There's a picture of a cow above

The well known Pythagorean theorem $x^2 + y^2 = z^2$ was proved to be invalid for other exponents. Meaning the next equation has no integer solutions:

$$x^n + y^n = z^n$$

In this example the huge font size is set and the Foot note size also. There's a fairly large set of font sizes.
